PROFESSIONAL SUMMARY

Full-Stack Software Developer with 3+ years of professional experience in web application development, backend services, API integration, enterprise system customization, workflow automation, and IT support. Experienced in building responsive applications, integrating payment systems, customizing ERPNext, and developing AI-powered solutions for business workflows. Works across modern frontend frameworks, backend technologies, databases, and deployment tools to build practical, business-focused software solutions.

TECHNICAL SKILLS

Frontend Development: React, Next.js, TypeScript, Tailwind CSS, Angular, Vue.js, Blazor.

Backend Development: Node.js, NestJS, Python, Flask, Django, C#, ASP.NET Core, PHP, Laravel, REST APIs.

Databases: PostgreSQL, MySQL, MariaDB, Firebase, SQLAlchemy.

AI & Document Processing: LLM/API Integration, AI-Powered Applications, Prompt Engineering, OCR, Automated Document Generation, Hugging Face, Ollama.

ERP & Business Integrations: ERPNext, Frappe Framework, Zoho, n8n, Safaricom M-Pesa Daraja API, WhatsApp API.

DevOps & Deployment: Git, GitHub, Docker, Linux, WSL, CI/CD, Render, Vercel, AWS, Hostinger, Frappe Cloud.

IT & Operations: IT Support, Technical Troubleshooting, System Administration, Technical Documentation, Team Coordination, System Integration, Virus Scanning.

PROFESSIONAL EXPERIENCE

Software Developer & IT Support — Norwa Africa

22 November 2024 – August 2026

- Developed, customized, and tested ERPNext modules supporting sales, HR, and business operations.

- Contributed to backend development and API-related tasks using C# and .NET technologies.
- Worked on business system integrations and workflow automation using Zoho and n8n.
- Supported IT operations, troubleshooting, and resolution of technical issues.
- Contributed to improvements in operational workflows through software customization and automation.

ICT & Computer Studies Teacher — Gracefields International School

8 January 2024 – 8 August 2024

- Taught ICT and computer studies, supporting learners in digital literacy and practical computer skills.
- Guided students in software usage, basic programming concepts, and structured problem-solving.
- Helped learners build confidence using digital tools and technology.

Volunteer Technology Mentor — Moringa School

4 November 2024 – 11 July 2025

- Mentored technology students in HTML, CSS, JavaScript, and React.
- Supported code reviews, technical questions, and practical problem-solving.
- Guided students on career preparation and professional development in software engineering.

SELECTED PROJECTS

AI-Powered Water Treatment Quotation Generator

Project Live link: <https://www.wari.norwawater.com/>

- Developed an AI-assisted workflow for preparing water treatment proposals and quotations.
- Supports uploading water analysis information as PDF documents or text for AI-assisted processing.
- Combines OCR and AI capabilities to support analysis and document-generation workflows.
- Produces downloadable quotations in PDF and Word formats.
- Designed to reduce quotation preparation time from approximately five hours to under ten minutes, based on the project's stated performance.

Technologies: Python, Flask, Hugging Face, Ollama, JavaScript, OCR, Docker, Hostinger.

Vortexus Industrial Marketplace

Website live link: <https://store.vortexusindustrial.com/>

- Contributed to an e-commerce marketplace with a responsive user interface and backend API integration.
- Worked with Blazor and ASP.NET Core technologies.
- Integrated Safaricom M-Pesa Daraja STK Push for payment processing.

Nelda Engineering — Water Treatment Website

Website live link [NELDA ENGINEERING SOLUTIONS LTD](#)

- Developed a React-based website for browsing and searching water treatment products.
- Integrated product data through the ERPNext API.
- Implemented React Query, React Router, debounced search, and pagination.
- Used Framer Motion and SweetAlert2 to support interface interactions and user feedback.

ERPNext Customization & Workflow Automation

- Customized ERPNext functionality to support business operations.
- Worked with Zoho and n8n to automate workflows and reduce manual processes.
- Contributed to business system integrations and operational workflow improvements.

EDUCATION

Bachelor of Science in Computer Science
University of Nairobi

Certificate in Full-Stack Web Development
Moringa School

ADDITIONAL STRENGTHS

- Full-stack application development and REST API integration
- Enterprise system customization and workflow automation
- AI-assisted application development and document processing
- IT support, technical troubleshooting, and system administration
- Problem-solving, collaboration, and technical communication
